## **Хід уроку.**

### **I. Introduction.**

- Good morning, Dear students! I'm glad to see you. Today we continue to talk about communication technologies.

### **II. Warming up.**

- Let's read and practice the tongue twister:

Bits Bytes Chips Clocks Bits in bytes on chips in box.

Bytes with bits and chips with clocks.

Chips in box on ether-docks.

### **III. Main Part.**

- As you can guess today we are going to talk about computers and your favourite sites. We'll learn new words, read the text, write exercises, work with cards, discuss and do the crossword.

- Once upon a time there were no computers, no video games, CD-ROM players, modern TV, fast phone connections,etc. A lot of things were not possible. But now the world is quite different and we can't imaging it without computers. Can you tell me where computer is used now.

(Banks, cartoons, fax machines, games, hospitals, industrial robots, jet planes, libraries, newspapers, TV, sports, washing machines, X-ray scanners.)

– Computers can transfer money from one account to another.

– Computers can be used to organize thousands single pictures used to make cartoons.

– Computers are used to send and print the signal from machine to machine.

- Chess can be played with the help of computers.

– A hospital patient's health can be analyzed by a computer.

### web server

- , accessible via a network such as the Internet
  - or a private local area network
  - through an Internet address known as a Uniform Resource Locator
  - . All publicly accessible websites collectively constitute the World Wide Web
- .

A webpage is a document, typically written in plain text interspersed with formatting instructions of Hypertext Markup Language (

HTML

,

XHTML

- ). A webpage may incorporate elements from other websites with suitable markup anchors
- .

Webpages are accessed and transported with the Hypertext Transfer Protocol (HTTP), which may optionally employ encryption (

HTTP Secure

- , HTTPS) to provide security and privacy for the user of the webpage content. The user's application, often a web browser
  - , renders the page content according to its HTML markup instructions onto a display terminal
- .

The pages of a website can usually be accessed from a simple Uniform Resource Locator (URL) called the web address. The URLs of the pages organize them into a hierarchy, although hyperlinking between them conveys the reader's perceived

site structure and guides the

reader's navigation of the site which generally includes a
